

# Refugio del Lago

## **Information for Arrival**

Refugio del Lago is run independently from SeeCamping, so the SeeCamping staff is not in charge to resolve any problems or help with any questions. They also don't check you in! However, they are responsible for safety and all communal facilities. Please show your identity if you are asked for.

## **Parking**

It is strictly forbidden to park on the street or at the restaurant. There are two big parking spaces with gates available, one for the restaurant, the other for the beach.

With a card from the Refugio it is possible to open the gate to the camping and luggage can be unloaded directly at the Refugio. Smaller cars maybe can also park here.

## **If you have any questions, please call 0650 2412007 (Karin Pargfrieder)!**

All text is silent on my phone, so please just give me a call! Otherwise, it can last hours or also a day before I see them. I really know the place and so that I can help even over the hotline.

## **Your Journey:**

It is a good idea to already buy some food before your arrival. In Linz as well as in Salzburg at the main train stations there are Spar shops with long opening hours. If you arrive by car, there is a big Spar shop in Eugendorf, later a Billa and a Unimarkt in Seekirchen.

Tea, Coffee, Sugar, Spices, Olive Oil, Vinegar etc. are there for the guests, but you need to buy all fresh food like vegetables, fruits, bread, milk, cheese and everything for your barbecue. Please remember that the fridge is really small (10l). Soja milk (like Alpro Soy Original) might be a good alternative to fresh milk.

You need Euro coins for your parking and the washing machine.

It is recommended to carry money in cash, because cards are not accepted everywhere and the next bank is in Seekirchen.

Even if you check-in on your own it is recommendable to arrive at least one hour before it is getting dark, so that you can turn on water and electricity while you still have light. After 10 p.m. also no driving within the campground will be possible.

Please bring your own bike helmets!

## **By car**

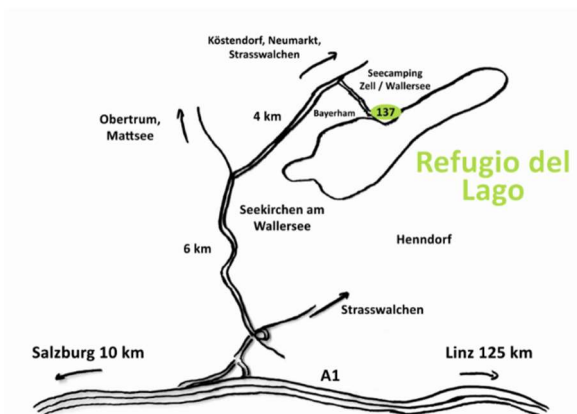

Address: Bayerham 40, 5201 Seekirchen am Wallersee (navigation does not always work)

Exit Eugendorf/Wallersee, passing Seekirchen (ca. 7 km), in Waldprechting turn right and go approx. 4 km direction Köstendorf (there are already signs for Strand-Camping Zell am Wallersee), after Bayerham turn right to ÖBB station Zell am Wallersee.

After crossing the train, the camping is already on your left. If you have an appointment for the check-in, please call on the phone and we meet at **restaurant „Wallerseeblick“**. I will open the gate and you can unload your luggage directly at the Refugio.

Else, please park your car in visitor parking of the restaurant. Pass the restaurant „Wallerseeblick“ with hand baggage. The staff of Seecamping is informed about my guests, however, they are not in charge for doing your check-in or helping you with any questions. After the gate, follow the street straight ahead, first crossing left. Again straight ahead, then the second small crossing right. Refugio is the second place on the left side, number 137 and located very centrally near the common facilities.

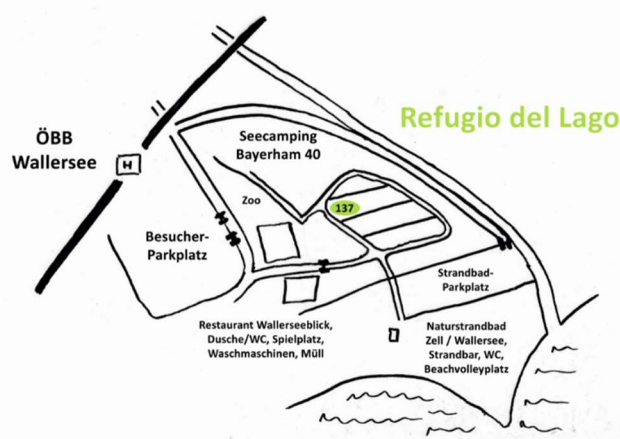

If you arrive early, it is recommendable to use the parking of the beach (“Strandbad”) and enjoy your day already there. You can later leave the car; it is not far with your baggage. Please contact me, if you want me to deposit some food for you in the fridge.

## **By train**

Train station (Zell am) Wallersee, you will have a train stopping here every hour (currently every full hour from both directions). It is located on the connection between Vienna and Salzburg. Heading to the lake, the camping is already on your left. You continue straight, then left, passing the restaurant „Wallerseeblick“. Remember the staff of Seecamping (working at the restaurant) are informed about my guests, but not in charge of helping you with any questions.

Pass the gate and continue straight, turn left at the first crossing. Then again straight and right at the second small crossing. Refugio is the second place on your left, number 137.

## **Self Check-in**

Turn on the water at the neighbor on the corner (138; cross = off, straight = open)

You can put your luggage on the terrace with a roof

Open the window roll-ups

Turn on the water at the shower (cross = off, straight = open)

Open the garden box with the code, take the key and card

Open the garden entrance with the key or the terrace entrance with the code

Turn on electricity (above the toilette) (up = on)

Turn on the fridge (back side: „On / Cool“)

Ready!

More information and pictures are there for you at the desk or with the writing utensils.
